

INSTITUTE FOR RESILIENT COMMUNITIES

Enabling resilience through science, technology, education and outreach

INTERNATIONAL SYMPOSIUM ON RADIOLOGICAL RESILIENCE & BEYOND

Lawrence Berkeley National Laboratory, Bldg 50 Auditorium , April 10th, 2015

We are pleased to invite you to the inaugural **International Symposium on Radiological Resilience and Beyond**. This symposium will be held at Lawrence Berkeley National Laboratory (Berkeley, California, USA) on Friday, April 10th, 2015.

Concurrent with the opening of the **Institute for Resilient Communities**, this symposium will be a great opportunity to present and discuss topics related to the current needs for increasing societal resilience to radiological events. A variety of topics will be discussed by representatives from Japan and California communities and research and academic institutions for an exciting multidisciplinary encounter.

We look forward to welcoming you in Berkeley in April 2015.

CONFERENCE AGENDA – BY INVITATION

Morning (Radiological Resilience)

- Welcome
- Introduction and goal of symposium
- Perspectives from Koriyama City
- Radiological responses to Fukushima at the National Institute of Radiological Sciences (NIRS)
- Radiological resilience at the National Council on Radiation Protection and Measurements (NCRP)
- Berkeley Radwatch
- Introduction of the Institute for Resilient Communities
- Opening Ceremony – Institute for Resilient Communities

Afternoon (Beyond Radiological)

- Perspectives from University of Tokyo
- Seismic resilience on the Pacific Rim
- Science and technology developments at the National Institute of Advanced Industrial Science and Technology (AIST)
- Urban Systems & Resilience at LBNL
- Global resilience activities in the Bay Area – panel discussion
- Summary and plans forward
- Reception (by invitation only)

Registration open for general audience.
